

**A NEW experience for KS1
and KS2 pupils to learn,
discover and enjoy**

**South Kirkby
Waste and
Recycling
Education Centre**

Following the success of our schools educational outreach programme, Renewi, working in partnership with Wakefield Council, are opening our very own education centre in January 2016.

The education centre is an interactive learning experience where KS1 and KS2 students can discover the world of waste and recycling. Unlike the outreach programme, children get an opportunity to **see** our world-class facilities in the safety of our education centre. This memorable experience encourages pupils to be the driving force behind the sustainable ethos in your school in an event that cannot be replicated in the school environment.

Even more fantastic, our education centre activities are totally **FREE!** You will just have to supplement your own transport.

Sounds great but am I eligible?

The experience is available to all KS1 and KS2 pupils, and those with special educational needs, who attend school in the Wakefield authority area. We can accommodate a maximum of 30 pupils per class.

**Taking
Bookings
NOW** for
January
2016
onwards!

What we can offer

We offer full day and half day packages. Our action packed full day visit includes three exciting cross-curricular activities as well as a zero waste packed lunch challenge. Our half day visit features a choice of two activities including:

- MRF picker race
- waste detectives
- extracting precious resources
- scavenger hunt
- compost cook Up
- re-use challenge
- archaeological digs

Our programmes can be tailored to help you achieve **Eco-Schools** bronze, silver or green flag status.

Our programmes cover a range of the **National Curriculum** and Key Stage Themes:

- **Art and Design** – produce creative work, using a range of materials and techniques
- **English** – presentations, interaction, reading
- **Geography** – fieldwork, natural resources, economic activity, global locational knowledge
- **Maths** – problem solving
- **Science** – working scientifically, materials, living things, plants, animals, states of matter, forces and magnets, rocks

How to Book

For more information, to request a booking form or to arrange a pre-visit please contact our Education Officer Jade Wilkes at jade.wilkes@renewi.com or call her directly on 01977 624678 or 07918625674
